Titan buckles and plastic hardware

deliver excellent performance! All of our products undergo extensive design and testing procedures to assure product dependability. Our parts meet exacting standards and are continually monitored by our quality control department.

We offer a wide range of standard buckles for all types of industries: medical, industrial, outdoor, travel, pet, tent, transportation and many others.

Custom, standard or just a concept, when it comes to plastic closures and hardware, we are the source that you can count on!

Custom Designed Hardware & Logos

We have a reputation for having what it takes to produce high quality custom parts: from your design to ours, we have excellent capability to design and produce your innovative parts. Our reliable production and workmanship, dependable timelines, strong product performance and effective customer service makes us the right choice for your custom needs.

When it comes to custom parts, we have cost-efficient approaches to making this process a hassle-free experience.

- Testing Equipment to Monitor Strength Requirements
- Economical Part Production & Associated Costs
- We Work With You to Meet Your Specific Needs
- First Article Sample Approval Process
- Custom Part Development & Design
- We Take Your Design to The Next Level
- Customized Colors & Logos Available
- We Have Product Development Capabilities

Sewn and Completed Parts

When parts need to be sewn for assembly or as a finished product, we are the solution to cost-effective production. Whether small and simple, or large and complex, we have the capability to handle your order! Saving on production costs is your biggest gain, along with quality and dependability. Let us quote on any sewn products you need, you could see big savings!

Take those production hassles away! Excess production, increases in seasonal business, market growth, we are able to help you get control over your completed parts needs. We have an excellent ability to supply finished products. Show us samples of what you need and save!

- **We Are the Source for Sewn & Completed Parts**
- **Guaranteed First Article Sample Approval Process**
- **Low Minimums, Excellent Workmanship**
- **Effective Production Capabilities**
- **We Build It & Then Deliver It Completed**
- **From Simple to Complex, Cost-Efficient Processes**
- **Industrial, Promotional, Medical, Outdoors & More**

Packaging

Packaging can make all the difference in effectively selling product. We can help with design, execution, printing, packaging, and more—some of these services will help to professionally display your product.

We are the source!

Let us quote on any of your specialized needs.

Pro Force Tactical

TITAN Pro Force Tactical, working in conjunction with Military Contractors, developed a wide range of products for immediate off-the-shelf delivery. Our tactical hardware comes in Coyote Tan and Foliage Green.

TITAN plastic hardware is built tough so they hold up out in the field when under intense circumstances.

We take pride in the quality and durability of our product.
